BRILLIANCE AUDIO, United States, 2015. CD-Audio. Book Condition: New. Unabridged. 170 x 135 mm. Language: English . Brand New. In the span of a few days, six tons of lithium-6 are stolen in Japan, and 180 grams of plutonium vanish in France. Word of these crimes quickly reaches Colonel Kenneth Andrews at the US Nuclear Terrorism Unit. He mobilizes the best team in nuclear defense, including special agents and couple Lauri Nurmi and Alice Donovan. As this secret task force sets out to find the contraband elements, they begin to fear that someone is developing a doomsday weapon. Breeder reactors are being installed around the world to provide clean energy, but they also present risks: every shipment of fuel to a nuclear power station gives terrorists an opportunity to create a nuclear weapon. When Lauri and Alice realize that they have a global conflict on their hands, one in which the definition of terrorist is a moving target, they'll put their relationship and their lives in jeopardy to venture headfirst toward a new and dangerous front line. But in this game of nuclear reaction, what holds the most power to destroy the world as we know it the weapon itself or the fear it inspires?.
