Here he covers the basics of investing, the various types of investments, and the language of investing in an easy to understand, enjoyable read. He has included the basics of his own investment psychology, some of his strategies, strategies of others, and some profound philosophies. In this interesting and educational guide he shoots down some popular myths. Starting with the basics, he takes you by the hand through the choice of investments, where to get reliable information, what information is really important, and then, step-by-step through DO IT YOURSELF order entry.
