

## Conserving European Biodiversity in the Context of Climate Change

By Michael B. Usher

COUNCIL OF EUROPE, France, 2007. Paperback. Book Condition: New. 231 x 155 mm. Language: English . Brand New Book. Climate change is likely to have major environmental effects on natural habitats in the next fifty years. Conservation of biological diversity will have to be modified drastically to avoid massive extinctions of species of threatened habitat types. Precise recommendations are made to governments and conservation agencies that collaborate in the framework of the Bern Convention. This publication provides a starting point for discussion about possible adaptation strategies if Europe's biodiversity is to be conserved.
