

Collected Papers (Classic Reprint)

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

(Mitchell Kuhn III)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Collected Papers They are found at various horizons in clays and limestones, from the lower to near the upper portion of the series. Most of the localities at which the Ostracoda were abundant (Nos. 585, 589, 26, 297), seem to be near the middle portion of the series. Here they are enormously abundant, often forming layers of impure limestone a foot or more in thickness. The limestone strata, of which there are usually several, alternate with beds of either clayey or tufaceous material ten or more feet thick. The conditions favoring growth and multiplication of the Ostracoda seem to have been particularly favorable in this region during the period in which these limestone beds were laid down. Lower down in the series, at locality No. 587, Ostracoda are quite abundant in a soft blue shale. Near the top of the section they are frequently present, but not in such numbers as to form a marked feature of the rocks. Localities. The five rock samples received are localized as follows: No. 585. Wild Cat Canon, opposite the Caves. From this locality two specimens were received. One is an extremely hard and compact limestone, of a pale brown color, and crowded with the carapaces of Ostracoda. This rock appears to have undergone a certain amount of compression, for the surfaces of the Ostracod-valves are impressed and indented by one another; and it is due to this fact that not very many valves were obtained from this specimen, which could be definitely described. The other specimen is from a friable calcareous rock of an ochereous brown color. This rock is almost entirely made up of the valves of...
